

COOKIE POLICY – Extended Cookie Information

What are Cookies

Cookies are small text files sent by the websites visited by users to their devices, where they are stored and then retransmitted to the same websites during the next visit. "Third-party" cookies, on the other hand, are set by a website different from the one the user is currently visiting. This happens because each website may contain elements (such as images, maps, sounds, specific links to web pages from other domains, etc.) that are hosted on servers other than the one for the site being visited. Cookies are used for various purposes: to perform digital authentication, monitor sessions, store information about specific configurations for users accessing the server, save preferences, and more. Below you will find all the information about the cookies installed through this site, along with the necessary instructions on how to manage your preferences regarding them.

For more information about cookies and their general functions, visit an informative website like <https://allaboutcookies.org>

Examples of Other Technologies

LocalStorage

LocalStorage is a technology used to optimize navigation, which does not collect data on the user's preferences (e.g., it stores a code that identifies the user's session after logging in, to avoid the need for the user to re-enter their username and password on every page of the profile when accessing restricted areas).

Tracking Pixel

A "tracking code" or "monitoring code" is, in fact, a small piece of code released by some systems to be implemented in others in order to track certain data related to the user and their browsing session or email opening, completely transparently to the user. The data tracked can vary, such as the day and time, geographical location, type of device used for browsing, and in more complex tracking pixels, it can even monitor the amount spent on a purchase order and other useful information for the marketing departments of the companies that use them.

Plugin

A plugin is a program that interacts with another program to enhance or extend its original functionalities. The most commonly used plugins are those from social networks, which allow users to, for example, follow a page or social profile with one click, indicate that they liked a web content with one click, and share it on their own social media profile, etc.

Widget

A widget is a graphical user interface component of a program, designed to make interaction with the program easier for the user. The most commonly used widgets are from social networks, which allow users to easily open social networks in a separate browser window.

These services allow interactions with social networks or other external platforms directly from the pages of a website. The interactions and any data collected by the site are subject to the privacy settings of the third party that created these technologies. To receive detailed information pursuant to Article 13 of Regulation (EU) 2016/679 regarding the processing of personal data when using these technologies, we invite you to visit the websites of the third-party providers of these technologies.

Please note that you can also manage your cookie preferences directly through your browser settings.

If you are not familiar with the type and version of the browser you are using, please click on the "Help" option in the browser window, where you will find all the necessary information.

If you are aware of the browser you are using, you may access its dedicated cookie management page by selecting it from the list below:

- Google Chrome: https://support.google.com/chrome/answer/95647?hl=en&p=cpn_cookies

Cookies Used by This Website

The use of cookies by the Data Controller of this website, BOGOGNO GOLF CLUB S.R.L., with registered office at Via Pontaccio no. 10, 20121 Milan (MI), Italy, and operational headquarters at Via Sant'Isidoro no. 1, 28010 Bogogno (NO), Italy, represented by its legal representative pro tempore, Tel. +39.0322.864137, Email: privacy@bogognogolfresort.com, is carried out in accordance with this Privacy Policy.

For all information required under Article 13 of EU Regulation 2016/679 – GDPR, please click <https://www.bogognogolfresort.com/site/filestore/media/10-PDF/BGR-privacypolicy-2025-EN.pdf>

Closing the cookie banner will result in the retention of the default settings and, therefore, the continuation of browsing without the use of cookies or other tracking tools, except for technical cookies.

TECHNICAL COOKIES NOT REQUIRING CONSENT

Cookies related to activities strictly necessary for the operation of the website and the provision of the service

Name	Supplier	Purpose	Expiration	Type
Cookie Consent	TermsFeed	Stores the user's cookie consent state for the current domain	1 year	HTTP Cookie

COOKIES OR OTHER TECHNOLOGIES REQUIRING USER CONSENT

All cookies (or other tracking technologies) other than the technical ones described above are installed or activated only after the user has provided explicit consent upon their first visit to the website. Consent may be given either generally, by interacting with the cookie banner displayed on the landing page of the website, in accordance with the methods described in that banner, or selectively, based on the options provided within the banner itself. This consent is recorded and considered for subsequent visits. You may withdraw, in whole or in part, any consent previously given at any time.

Statistical Cookies

Name	Supplier	Purpose	Expiration	Type
Google Analytics	Google	User Analysis	1 year	HTTP Cookie

COOKIES OR OTHER TECHNOLOGIES MANAGED BY THIRD PARTIES

This website also installs cookies or other technologies managed by third parties. Below you will find relevant information, together with a link to the privacy policy and the consent form provided by each of them.

Name	Third Part	Purpose	Expiration	Type
3B Meteo	3B Meteo	Weather Forecast	1 year	HTTP Cookie
